Holistic Cybersecurity Expertise

ITsavvy is a trusted **Cybersecurity** strategy partner with proven expertise across all cybersecurity disciplines. We provide our clients strategic guidance on solutions and services that enable them to improve their cybersecurity posture and reduce risk. Our experts work hand in hand with our strategic cybersecurity partners to ensure our clients are able to collaborate with best in class firms. **ITsavvy takes a holistic approach to the cybersecurity solutions we design for our clients, with a keen focus on our client's business objectives.**

Reduce and Remediate Cybersecurity Threats

Our experts provide insight on how to reduce and remediate cybersecurity threats. ITsavvy and our partner ecosystem helps clients reduce the following attacks and threats:

· Insider threats

· Phishing attacks

· Social engineering attacks

· DDoS attacks

· Ransomware attacks

· Third party risk

Our Process

ITsavvy provides solutions for our clients that leverage our expertise across the cybersecurity landscape. Our experts work directly with our clients and partners throughout the Discovery, Guidance and Deployment process.

Discovery
We listen and understand your business objectives, challenges, requirements, and new initiatives.

Guidance
We provide clients with a tailored program that addresses their unique security gaps, and provides guidance for the best cybersecurity solutions.

Deployment
Our end-to-end process includes working with our partners until the end of the client deployment process.

Start your journey now. Visit ITsavvy.com.

Our Cybersecurity Strategy

ITsavvy understands that every client's cybersecurity program is unique and requires a tailored approach to the threat landscape. We leverage our proven expertise to provide insight for our clients and work hand in hand to deploy partner-led cybersecurity solutions, such as:

- Security Operations and Incident Response
- Identity and Access Management
- Network and Infrastructure Security
- Cloud Security
- Email Security
- Endpoint Security

- Security Awareness and Education
- Cybersecurity Vulnerability and Penetration Testing
- Application Security
- Governance Risk and Compliance
- Physical Security
- And more

Our Partner Ecosystem

ITsavvy's cybersecurity solution includes an extensive partner ecosystem because every cybersecurity partner offers a unique value proposition and strengths. We are always adding new partners, especially when it helps provide a custom solution for our clients. If your organization is interested in learning more about how ITsavvy's cybersecurity experts and ecosystem can help prevent threats and solve your cybersecurity problems, let's connect and start a productive discussion.
